PROFILE

Experienced Automation Test Engineer with a proven track record of 3 years in designing, implementing, and executing automated test scripts. Adept at collaborating with cross-functional teams to ensure the delivery of high-quality software solutions. Proficient in various test automation tools and frameworks.

WORK EXPERIENCE

Test Automation Engineer

Qualitest India Pvt Ltd

2021-Present

- Developed and implemented automated test scripts using Selenium WebDriver and Playwright to enhance testing efficiency by 50% and minimize manual errors.
- Collaborated with cross-functional teams to analyze system requirements and design scalable test frameworks for web and mobile applications.
- Led the integration of continuous integration and continuous delivery (CI/CD) pipelines, streamlining the test execution process and reducing release cycles by 30%.
- Collaborated with developers to integrate automated tests into the continuous integration pipeline using Jenkins, ensuring early detection of defects.
- Conducted root cause analysis of test failures and collaborated with the development team to address and resolve issues promptly.
